- **Section B:** Essay questions demanding detailed analysis and critical discussion on specific themes or case studies.

The total marks allocated and the number of questions varied depending on the specific syllabus and examination board. However, understanding the structure helps students allocate their time effectively during the exam.

Common Themes Covered in the 2013 Papers

The 2013 criminology exams focused on several core themes, including:

- **Theories of Crime:** Classical, positivist, strain, social learning, and social control theories.
- **Criminal Justice System:** Roles of law enforcement, courts, and correctional institutions.
- **Types of Crime:** Property crimes, violent crimes, white-collar crimes, cybercrime, and juvenile delinquency.
- **Crime Prevention Strategies:** Community policing, rehabilitation, situational crime prevention.
- **Research Methods in Criminology:** Surveys, case studies, interviews, and statistical analysis.

- **Legal Framework and Human Rights:** Relevant laws, ethical considerations, and human rights issues related to crime and justice.

Sample Questions and Model Answers from 2013

Section A: Short-Answer Questions

Sample questions from the 2013 papers often tested students' knowledge of definitions, concepts, and simple applications.

- **Question:** Define 'recidivism' and explain its significance in criminology.

- **Model Answer:** Recidivism refers to the tendency of a convicted criminal to re-offend after they have been punished or undergone intervention. It is significant because high recidivism rates indicate the ineffectiveness of certain criminal justice measures and highlight the need for improved rehabilitation programs.

- **Question:** List three types of cybercrimes.

- **Model Answer:**

- Phishing attacks
- Hacking and data breaches
- Cyberstalking and harassment

Section B: Essay Questions

Essay questions require students to critically analyze topics and support their arguments with evidence.

- **Question:** Discuss the role of social learning theory in understanding juvenile delinquency.

- **Model Answer:** The social learning theory posits that criminal behavior is learned through interaction and communication with others. Juveniles may adopt delinquent behaviors by associating with peers who engage in criminal activities, observing and imitating their actions, and receiving reinforcement for such behaviors. This theory emphasizes the importance of environment and social relationships in shaping juvenile conduct. Prevention strategies, therefore, focus on positive role models and modifying peer associations to reduce delinquency.

- **Question:** Evaluate the effectiveness of community policing in crime prevention based on the

2013 exam responses.

- **Model Answer:** Community policing is a strategy that involves police working closely with communities to identify and solve problems collaboratively. In 2013 exam responses, students highlighted its effectiveness in fostering trust, encouraging community participation, and addressing local concerns proactively. However, some argued that its success depends on adequate funding, training, and genuine community engagement. Overall, when well-implemented, community policing can lead to reduced crime rates and improved community relations.
