Step 3: Define Cost Centers and Hierarchies

Cost centers represent departments or units incurring costs.

- Use transaction code: **KS01** to create cost centers
- Assign cost centers to controlling areas
- Organize cost centers into hierarchies for reporting

Step 4: Establish Profit Centers

Profit centers facilitate profitability analysis.

- Transaction code: **KE51**
- Create profit centers with relevant details
- Assign profit centers to organizational units

Step 5: Configure Internal Orders

Internal orders track costs for specific projects.

- Transaction code:
- Set order types, statuses, and settlement rules
- Link internal orders to cost centers or projects

Step 6: Set Up Profitability Analysis (CO-PA)

CO-PA enables detailed profitability reporting.

- Define operating concern
- Set characteristic and key figure structures
- Configure value fields and data transfer methods

Operational Processes in SAP Controlling

Once setup is complete, organizations can perform various controlling activities, such as planning, actual postings, and reporting.

Cost Planning and Budgeting
