All Judo Techniques: A Comprehensive Guide to the Art of Gentle Combat

All judo techniques encompass a wide array of moves designed to throw, grapple, or immobilize an opponent, emphasizing leverage, timing, and technique over brute strength. Originating from Japan in the late 19th century, judo has evolved into a globally practiced martial art and Olympic sport, renowned for its emphasis on efficiency, discipline, and mutual respect. Understanding the full spectrum of judo techniques is essential for practitioners aiming to improve their skill set, whether they are beginners or advanced competitors.

Foundations of Judo Techniques

Judo techniques are traditionally divided into two main categories: throwing techniques (*nage-waza*) and grappling techniques (*katame-waza*). Each category comprises multiple techniques tailored to different situations, body types, and strategic approaches. Mastery of these techniques requires dedicated practice, proper biomechanics, and strategic application.

Throwing Techniques (*Nage-Waza*)

Throwing techniques are the hallmark of judo, aiming to unbalance and project the opponent onto the mat cleanly and efficiently. They are further classified into standing throws (*Tachi-waza*) and sacrifice throws (*Sutemi-waza*).

Standing Throws (*Tachi-waza*)

- **Ippon Seoi Nage (One-arm Shoulder Throw):** A dynamic throw where the tori (thrower) scoops the opponent's arm onto their back and flips them over the shoulder.
- **O Goshi (Major Hip Throw):** A fundamental hip throw where the tori uses their hips to lift and project the opponent forward.
- **Harai Goshi (Sweeping Hip Throw):** Combines a hip lift with a sweeping leg to throw the opponent sideways.
- **Uchi Mata (Inner Thigh Throw):** A powerful inner thigh throw that uses a sweeping leg motion to destabilize the opponent.
- **Seoi Nage (Shoulder Throw):** A classic throw where the tori drops under the opponent's center of gravity and flips them over the shoulder.
- **O Soto Gari (Major Outer Reap):** Reaping the opponent's leg from the outside to off-balance and throw.
- **Ko Soto Gari (Small Outer Reap):** Similar to O Soto Gari but executed with a smaller, more controlled reap.

Sacrifice Throws (*Sutemi-waza*)

Grappling Techniques (*Katame-Waza*)

Grappling techniques focus on controlling, pinning, or immobilizing the opponent once the throw has been executed or in newaza (ground fighting). These techniques are crucial for scoring points and maintaining dominance in a match.

Hold-downs (Pins) (*Osaekomi-waza*)

- **Kesa Gatame (Scarf Hold):** The tori controls the opponent's head and arm, immobilizing them on their side.
- **Yoko Shiho Gatame (Side Four Corner Hold):** A side control pin securing the opponent on their back.
- **Tate Shiho Gatame (Vertical Four Corner Hold):** A vertical hold controlling the opponent from above.

Chokes and Strangles (*Shime-waza*)

- **Hadaka Jime (Naked Strangle):** A choke applied around the neck using the arms, often from a collar grip.
- **Okuri Eri Jime (Sliding Collar Choke):** A choke executed by sliding the collar to tighten around the neck.
- **Kata Te Jime (Single-Hand Strangle):** A choke using one hand around the opponent's neck.

Joint Locks (*Kansetsu-waza*)
